# HD-381 SERIES

#### Hairline Finish:

For a sleek appeal, the HD-381 series enclosure is encased in a very stylish hairline finish aluminum alloy available in black and bronze. The aluminum alloy makes this highly effective in heat dissipation.

#### SATA /II HDD:

Compatible with today's most widely used serial ATA /II hard drives with capacities of up to 1TB.

#### One-Touch Backup Function (OTB):

You don't need to be an expert to backup your data fast; you just have to push a button.

#### USB Interface:

Carries one of the most common interfaces used today, the USB port allows a speedy data transfer of up to 480 Mbps.
