

NB-430

Coolmax NB-430 is the new black notebook cooler that is sleek and slender - a barely noticeable cooling goodie for your laptop. Prevent overheating and that burning sensation from happening; this notebook cooler is quite the effective tool your notebook needs. It comes equipped with a hidden USB slot tucked away for convenience and a neat, clean appearance and dual fans for increased cooling efficiency.

Features

- Black plastic cooler for a sleek appeal while light to the touch for convenience and portability
- Ready with dual fans designed for a quick, efficient heat relief while maintaining low noise level
- USB bus powered to eliminate excess wiring; no need for batteries or power adapters
- User-friendly

NB-430

Dual Cooling Fans

Double the fans. Double the speed. This unit comes with two cooling fans to help expedite the heat dissipation process to keep your notebook running cooler longer.

Sleek and Slender

A cooler so thin, it's barely noticeable.

Lightweight

The dark, plastic casing not only creates a nice appeal to the device, but makes it feather-light to the touch.

USB Bus Powered

Connect directly to your notebook with the USB power cable and power your cooler as you use your notebook and then tuck it away neatly when you're done. Hassle-free.
