

# NW SERIES

## Automatic Fan Setting:

Automatic fan speed setting with thermal sensor to adjust the fan according to your system's needs to prevent it from overheating while maintaining the lowest noise level possible.

## Dark Coating Chassis:

To illuminate a sleeker, darker appeal for a classy and contemporary style.

## Cooling System:

120mm silent cooling fan built with honeycomb structured casing to create the most efficient cooling time.

## PCI-e Ready:

Prepare to utilize your best graphic cards because this unit is PCI-e ready.

# NW SERIES

The NW-series offers a range of watts available to suit your system's needs, but at 650 watts, you'll also enjoy the dual PCI-E connectors. So with greater power comes greater graphics. It'll offer you the power you need, with the best automatic cooling system, and a pinch of style.

## Features

- Dual PCI-E Connectors (at 650W)
- 120 mm fan designed for long life, durability, and fastest cooling time
- Automatic fan setting for best heat dissipation
- Smart cable management
- Over/Under voltage protection
- PCI-E Connector ready
- Multiple SATA connectors ready

## Power Distribution Configuration

AC INPUT		100~132VAC or 200~264VAC						
MODEL	DC OUPUT	+3.3V	+5V	+12V1	+12V2	+12V3	-12V	+5VSB
NW-450B	Max. Output Current	21A	20A	18A	18A	-	0.5A	2.5A
	Max. Combined	135W		350W			-	-
NW-550B	Max. Output Current	22A	24A	17A	17A	15A	0.5A	2.5A
	Max. Combined	150W		420W			-	-
NW-650B	Max. Output Current	25A	25A	16A	16A	16A	0.5A	2.5A
	Max. Combined	160W		540W			-	-

## Power Connector

NW SERIES						
Connector	20+4 pin	Periphal	SATA	FDD	PCIe 6-Pin	4 pin to 8 pin
