COOLMAX®

V - 5 0 0

Great for Daily Use:

Nothing fancy for those who don't need all the extraneous cables and connectors. This power supply provides the essential tools to get the job done. It's all about the necessity.

120mm Cooling Fan System:

Honeycomb shaped ventilation built with a 120mm cooling fan to ease the heat built-up in your system. Keep a cool system balanced with the minimum noise level possible.

Power:

Provides sufficient power to keep your basic system up and running at 500 watts of power and efficiency.

Circuit Protection:

Over voltage and short circuit protection for your V-500 on all output levels.

V-500

The V-500 is perfect for casual, everyday users who need an efficient power supply that can deliver the watts necessary without all the additional features. With components designed for longer life, the V-500 is the perfect candidate. It has a noiseless 120mm fan that is quiet to the ears with maximum cooling efficiency. Also with neat cable wires, the V-500 is simple to use, easy to install, and still has all the power necessary to run your system smoothly.
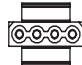

Features

- 120mm silent fan design for long life, low noise level, and fastest cooling time
- Specially selected components & high performance heat sink to cool down system
- Serial ATA 150 ready & fully support all AMD & Intel series demand

- Cable-tube on main power cables for better cable routing and neatness
- Universal connector fits most of branded motherboard
- Over voltage protection, short circuit protection on all output level
- MTBF > 100,000 hours @ 25°C

Power Distribution Configuration

AC INPUT		100~132VAC or 200~264VAC					
MODEL	DC OUPUT	+3.3V	+5V	+12V1	+12V2	-12V	+5VSB
V-500	Max. Output Current	30A	45A	18A	16A	1A	2.5A
	Max. Combined	275W		380W		12W	12.5W

Power Connector

Connector	20+4 pin	P4	Periphal	SATA	FDD
V-500	1	1	4	1	1

Model Number

Model Number	UPC Barcode	Dimension (L x W x H)
V-500	895963146212	6.00 x 5.60 x 3.50 IN

Warranty: Coolmax 1 year limited warranty
