

# VL-600B

#### PCI-E Ready:

PCI-E ready for your high-end graphics card, so you can have the enhanced picture you want.

#### 140mm Blue LED cooling fan:

With the new 140mm Blue LED cooling fan for the VL-series, you can keep your system cooler and quieter than ever before.

#### Automatic Setting:

The fan comes with an automatic setting to adjust according to the heat dissipation level necessary maintaining a good balance between noise and cooling level.

#### Connectors:

It has all the connectors you need.

# VL-600B

The VL-series is the power supply for all casual users who needs a pinch of higher than average power - 600 watts. It has all the connectors you need. PCI-E ready for your high-end graphics card, so you can have the enhanced picture you want. With the new 140mm Blue LED cooling fan for the VL-series, you can keep your system cooler and quieter than ever before. The fan comes with an automatic setting to adjust according to the heat dissipation level necessary maintaining a good balance between noise and cooling level.

## Features

- 6 pin PCI-E Connector ready
- 140 mm Blue LED Fan designed for long life, durability, and fastest cooling time
- Automatic fan setting for best heat dissipation
- Good balance between noise and cooling level
- Cable-tube on main power cables for better routing and neatness
- Universal connector fits most branded motherboard

## Power Distribution Configuration

AC INPUT		100~132VAC or 200~264VAC						
MODEL	DC OUPUT	+5V	+3.3V	+12V1	+12V2	+12V3	-12V	+5VSB
VL-600B	Max. Output Current	24A	24A	18A	18A	15A	0.5A	2.5A
	Max. Combined	160W		450W			6W	12.5W

## Power Connector

						
Connector	20+4 pin	Periphial	SATA	FDD	PCIe 6-Pin	4 pin
VL-600B	1	6	2	1	1	1

## Model Number

Model Number	UPC Barcode	Dimension (W x L x H)	Pcs/Ctn
VL-600B	895963147493	5.90 x 6.30 x 3.30 IN	6 pcs

Warranty: Coolmax 2 year limited warranty
